

DAVID SALAS CARRASCAL

Atlanta, GA | (404) 883-9215 | davidtnt970@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Georgia State University | Atlanta, GA

Bachelor of Science, Computer Science

Fall 2026

- GPA: 3.6: Software Development, Data Structures, Operating Systems, Computer Networks, Database Management Systems
- Organizations: SHPE (Society of Hispanic Professional Engineers), ACM (Association for Computing Machinery)

SKILLS

- **Frontend:** React, Next.js, Tailwind CSS, TypeScript
- **Backend:** Node.js, Express.js, Flask, Spring Boot, Python, Java
- **Databases:** PostgreSQL, MongoDB, SQL, Supabase
- **Tools:** Git, GitHub, Netlify, Docker, AWS, Postman
- **Languages:** Spanish

WORK EXPERIENCE

CodePath | Tech Fellow | Atlanta, GA

Aug 2025 - Present

- Guided **20 students** to **100% project completion** through weekly 1:1 check-ins, troubleshooting HTML, CSS, and JavaScript.
- Recruited **40+ new members** in **2 months** and conducted **10 technical workshops** for **20 students**, driving program growth.

SHPE | Software Development Lead | Atlanta, GA

Aug 2024 - Present

- Built 12+ Arduino projects (e.g., radar with ultrasonic sensors, false Wi-Fi for cybersecurity, RFID security check) using C++ and Python to teach microcontroller concepts, resulting in a **25% increase in member retention**.
- Led a team of **3 developers** to launch the GSU SHPE chapter's online presence, implementing **JSON-LD schema** for better search visibility, increasing exposure to companies and secured **\$1,500 in sponsorships**.
- Assisted **10+ SHPE members** during office hours with Python assignments in Data Structures & Algorithms and System-Level Programming, resulting in **average scores of 90%**.

Elys BMG | Information Systems Intern | Atlanta, GA

Jun 2024 - Oct 2024

- Minimized system downtime by remotely diagnosing and resolving technical issues for **100+ global clients**.
- Built an internal knowledge base by authoring **20+ technical guides** for novel issue resolution.

PROJECTS

Coffee Canvas - CodePath | React, Express, PostgreSQL, API | [GitHub](#)

Oct 2025 - Oct 2025

- Developed a full-stack coffee platform with full CRUD functionality using React, Express.js, and PostgreSQL.
- Engineered a dynamic, real-time price calculator and intelligent form validation to ensure 100% order accuracy.
- Built and debugged an Express.js RESTful API, resolving critical 404 errors and correcting SQL statements to ensure data persistence.

QR Generator - Personal | Python, HTML/CSS | [GitHub](#) | [Livesite](#)

Nov 2024 - Sep 2025

- Generated over **1,000 unique QR codes** for a retail client with a Flask and Python web application, enhancing brand visibility.
- Engineered a **90%** improvement in system efficiency by implementing per-session file management and automated backend file cleanup.
- Reduced QR code render time by **10%** and cut redundant backend logic by **50%** by refactoring core processes.

The Spotter Zone - CodePath | React, PostgreSQL, Git | [GitHub](#) | [Livesite](#)

Apr 2025 - May 2025

- Built a responsive single-page application supporting **10+ users** with dynamic routing using React Hooks and React Router.
- Integrated Supabase Auth and a PostgreSQL backend for secure authentication and real-time data storage for **10 user accounts**.
- Reduced deployment time by **30%** by implementing CI/CD workflows with Netlify, Git, and GitHub.

Employee Management System - GSU | Java, Bootstrap, Spring Boot, API | [GitHub](#)

Apr 2025 - May 2025

- Spearheaded a **4-person team** in developing an enterprise-ready Employee Management System using React, Vite, and Bootstrap.
- Streamlined complex employee data management tasks by optimizing the React frontend.
- Engineered a responsive UI with Bootstrap, simplifying data management for administrators.
